14 Doctors from ONS included in Greenwich Magazine's Top Doctors list **2014 list of the top medical experts in Fairfield County is compiled by Castle Connolly**

GREENWICH, CT - When you need the name of a good doctor, ask another doctor. As a means to that end, each year Moffly Media asks Castle Connolly, the physician-led medical research team that vets doctors nationwide, to provide a list of top physicians in Fairfield County for their annual Top Doctors list. The January 2014 Top Doctors issue of Greenwich, Stamford, New Canaan/ Darien and Westport Magazines contains information on over 393 doctors in 47 medical specialties. This year's list includes 14 doctors from Orthopaedic and Neurosurgery Specialists, PC (ONS) located at 6 Greenwich Office Park in Greenwich, CT: **neurosurgeons** - Paul Apostolides, MD; Mark Camel, MD; Amory Fiore, MD and Scott Simon, MD; **orthopedic surgeons** - Michael Clain, MD; John Crowe, MD, James Cunningham, MD; Frank Ennis, MD; Steven Hindman, MD; Brian Kavanagh, MD; Seth Miller, MD; Paul Sethi, MD; and David Nocek, MD; **physiatrist** - Jeffrey Heftler, MD.

"Once again, we are proud to have so many of our skilled physicians recognized in this year's Top Doctors lists," said Dr. Seth Miller. "Our doctors are among the very best in the country. Each has been hand-picked for their superior credentials and experience."

Each year Castle Connolly's experts ask medical leaders across the country to identify physicians they believe to be the best in their respective fields. The nominees' credentials, including educational and professional experience, are then carefully screened and the list compiled.

Orthopaedic and Neurosurgery Specialists, PC (ONS) physicians provide expertise in the full spectrum of musculoskeletal conditions and injuries, sports medicine, minimally invasive orthopedic, spine and brain surgery, joint replacement and trauma. The main office is located at 6 Greenwich Office Park on Valley Road, Greenwich, CT. For more information, visit [www.onsmd.com <http://www.onsmd.com>](http://www.onsmd.com) or call (203) 869-1145.
